Lecture Sponsors

The De Jong Lecture is supported by the Gordon F. and Caroline M. De Jong Lecturship in Social Demography Endowment, administered jointly (and supplemented as necessary) by the Department of Sociology and the Population Research Institute.

Gordon F. De Jong is Distinguished Professor of Sociology and Demography, Director of the Graduate Program in Demography, and Senior Scientist with the Population Research Institute at Penn State. Caroline M. De Jong, a former middle school teacher, has been involved in numerous community, church, and university-related organizations including the American Association of University Women, Stay-and-Play Nursery School, Presbyterian Women, and the Center County Board of Elections.

Alberto Palloni

Alberto Palloni is Board of Trustees Professor in Sociology and a faculty associate of the Institute for Policy Research at Northwestern University. Dr. Palloni, who received his B.A. from Catholic University in Chile and his Ph.D. from the University of Washington, spent over 25 years in the Department of Sociology and the Center for Demography and Ecology at the University of Wisconsin. He is an elected member of the American Academy of Arts and Sciences and past president of the Population Association of America. During his distinguished career, he has served in advi-

sory and consulting capacities to the National Research Council, the World Health Organization, and the United Nations. His approximately 100 publications cover a wide range of topics, with current scholarship focusing on the relation between early health status and social stratification, the spread of HIV/AIDS, families and households in Africa and Latin America, aging and mortality, and mathematical models and statistical applications. Support for Dr. Palloni's research has come from NSF, NIH, NIA, the Rockefeller and Robert Wood Johnson foundations, and the Pan American Health Organization, among other sources. In 2006 he received the highly selective NIH MERIT Award, which will provide continuous funding for his work over the next decade.

Discussant Profiles

Dalton Conley is University Professor of the Social Sciences and Chair of Sociology at New York University. He also holds appointments at NYU's Wagner School of Public Service, Mount Sinai School of Medicine, and the National Bureau of Economic Research. The first sociologist to win NSF's prestigious Alan T. Waterman Award (in 2005), Dr. Conley is the author of several books, including *Being Black, Living in the Red* and *The Starting Gate: Birth Weight and Life Chances*. His research examines the determinants of economic inequality within and across generations.

Duane Alwin is McCourtney Professor of Sociology and Demography and Director of the Center on Population Health and Aging at Penn State. A fellow of the Gerontological Society of America, Dr. Alwin has been recognized by the Institute for Scientific Information as "one of the world's most cited authors." His numerous publications, which include *Political Attitudes Over the Life Span* and *Margins of Error: A Study of Reliablity in Survey Measurement*, reflect his interests in human development, social change, individual health and well-being, and research methodology.
