## HONORS AND AWARDS

---

**Anne and James Rothenberg Dissertation Award** –\$23,000 in dissertation grants  
Pardee RAND Graduate School, awarded two consecutive years: 2019 – 2020 and 2020 – 2021

**Opioid Hackathon Winner** – Developed machine learning tool to prevent opioid overdose deaths  
University of California, Institute for Prediction Technology 2018

## TEACHING EXPERIENCE

---

**Pepperdine University** **Malibu, CA**  
Adjunct Instructor, Statistical Analysis for Business Decisions 2019 – 2020

- Taught introductory and intermediate applied statistics to undergraduate students

**Pardee RAND Graduate School (RAND Corporation)** **Santa Monica, CA**  
Teaching Assistant, Advanced Econometrics III 2019  
Teaching Assistant, Empirical Analysis II 2016 – 2018

- Taught regression and panel data analysis, experimental and quasi-experimental designs for impact evaluation, and statistical programming in R and STATA to Ph.D. students

## RESEARCH AND PROFESSIONAL EXPERIENCE

---

**RAND Corporation** **Santa Monica, CA**  
Assistant Policy Researcher 2015 – 2021

- Applied experimental and quasi-experimental methods for program evaluation
  - Performed analysis of American Community Survey data using a difference-in-difference approach in STATA to understand whether the OxyContin reformulation policy increased the Social Security Disability Insurance application rate. Paper is forthcoming at the *Journal of Health Economics*.
  - Evaluated impact of opioid reformulation policy on crime rates. Preliminary results found that OxyContin reformulation increased US murder rates. Working paper presented at the American Economic Association Meeting in 2020.
- Worked on 10+ projects for public and non-profit clients
  - Designed, distributed, and analyzed annual survey on wellbeing status of Santa Monica residents.
  - Examined survey data to measure the contribution of public parks on the physical wellbeing of Los Angeles residents in the National Institutes of Health project. Study published as peer-reviewed journal articles.
- Applied data science and machine learning methods for Policy Analysis
  - Examined the relationship between medical utilization and mental health outcomes among US Army officers using machine learning techniques. Results published as RAND report.
  - Applied text analysis to identify geographic heterogeneity of Twitter users.

**KAIST** **Daejeon, South Korea**  
Researcher, Global Information and Telecommunications Technology 2012 –2013

- Evaluated impact of *Next African Leader Program*, an African Development Bank (AfDB) project. Results from interview-based qualitative evaluation published as an evaluation report.

## SKILLS

---

**Analytical software:** Python, SAS, STATA, R, SPSS, ArcGIS, PLS, GAMS, MATLAB

**Languages:** English, French (Beginner level DELF A2), Swahili (Beginner), Korean (Native)
