

## CURRICULUM VITAE

### **Steven A. Branstetter, Ph.D.**

Associate Professor, Biobehavioral Health

**Office Address:** Department of Biobehavioral Health  
The Pennsylvania State University  
227 Biobehavioral Health Building  
University Park, PA 16802

**Voice:** (814) 865-7793

**Fax:** (814) 863-7525

**E-Mail:** sab57@psu.edu

### **Research focus and expertise:**

Smoking behaviors and nicotine dependence among adolescent and adults; individual, social and environmental factors related to smoking cessation among adolescents; Smoking behaviors associated with disease risk and cessation failure; experience and predictors of acute nicotine withdrawal.

### **Education:**

- ***Ph.D. in Child Clinical Psychology***, University of Denver (APA Accredited), 2005
- ***M.A. in Clinical Psychology***, University of Colorado at Denver, 1998
- ***B.A. in Psychology and Sociology***, University of Colorado at Boulder, 1995

### **Academic Appointments:**

- ***Associate Professor***, Department of Biobehavioral Health, The Pennsylvania State University (2015-Present)
- ***Assistant Professor***, Department of Biobehavioral Health, The Pennsylvania State University (2009-2015)
- ***Assistant Professor***, Clinical Child Psychology, Department of Psychology, West Virginia University (2005-2009)
- ***Associate Member***, Population Research Institute, The Pennsylvania State University (2013-Present)
- ***Co-Leader***, Cancer Control and Population Health Program, Penn State Hershey Cancer Institute (2012-Present)
- ***Member***, Penn State Hershey Cancer Institute (2009-Present)

### **Professional Memberships:**

- Society for Research on Nicotine and Tobacco
- College for Problems on Drug Dependence
- Society for Research on Adolescence

### **Honors and Awards:**

- Award for Teaching Excellence, College of Health and Human Development-The Pennsylvania State University (2012-2013).
- One of three “Most Impactful Faculty Members” in Biobehavioral Health-The Pennsylvania State University (2013).
- West Virginia University Eberly College of Arts and Sciences Outstanding Researcher nominee (withdrawn due to move to Penn State University; 2009).
- National Institute on Drug Abuse Child/Adolescent Workshop Mentee (2004).
- Outstanding Graduate Student Award, University of Colorado at Denver (1998).
- National Institute on Drug Abuse Director’s Travel Award to College for Problems on Drug Dependence (2002); Society for Research on Adolescence (2002).

## TEACHING

---

### **Formal Classroom Teaching – Graduate Level:**

Title: ***Behavioral Health Research Strategies*** (BBH 505; 3 credit hours). The Pennsylvania State University, Department of Biobehavioral Health.  
Role: Course instructor (100% responsibility) / Co-Instructor (Fall Semester 2013).  
Enrollment: 8-10 graduate students.  
Offered: Two semesters (one semester 100%; one semester 66%)  
Description: Research strategies in behavioral health investigations are examined. Designs and data analytic models relevant to biobehavioral research are included.

Title: ***Advanced Behavioral Research Strategies*** (BBH 597a; 3 credit hours). The Pennsylvania State University, Department of Biobehavioral Health.  
Role: Co-Instructor (5 weeks).  
Enrollment: Eight graduate students.  
Offered: One semester (33%)  
Description: This course is an experimental course which serves as continuation of BBH 505.

Title: ***Child Behavior Therapy*** (PSYCH 671; 3 credit hours). West Virginia University, Department of Psychology.  
Role: Course instructor (100% responsibility).  
Enrollment: 10 graduate students  
Offered: Two semesters  
Description: Assessment, intervention, and evaluation strategies appropriate for childhood disorders and based on behavior principles.

Title: ***Multivariate Statistics*** (PSYCH 612; 3 credit hours). West Virginia University, Department of Psychology.  
Role: Course instructor (100% responsibility).  
Enrollment: 20 graduate students  
Offered: One semester  
Description: Data analysis techniques in psychology with application to typical research problems. Includes simple matrix algebra, discriminant analysis, multivariate analysis of variance, and an introduction to factor analysis.

Title: ***Seminar in Methodology: Structural Equation Modeling*** (PSYCH 711; 3 credit hours). West Virginia University, Department of Psychology.  
Role: Course instructor (100% responsibility).  
Enrollment: 15 graduate students  
Offered: One semester  
Description: Introduction to theoretical and practical application of structural equation modeling.

Title: **Research Design and Data Analysis II** (PSYCH 512; 3 credit hours). West Virginia University, Department of Psychology.  
Role: Course instructor (100% responsibility).  
Enrollment: 15 graduate students  
Offered: One semester  
Description: Inferential statistics, simple correlation and regression, multiple correlation and regression, partial correlation, analysis of power, analysis of covariance, analysis of variance of designs with unequal cell sizes.

**Formal Classroom Teaching – Undergraduate Level:**

Title: **Health Promotion II: Planning, Implementation, and Evaluation** (BBH 416; 3 credit hours). The Pennsylvania State University, Department of Biobehavioral Health.  
Role: Course instructor (100% responsibility)  
Enrollment: ~40 undergraduate students  
Offered: Five semesters  
Description: Planning, implementation, and evaluation of health promotion, prevention, and intervention programs; emphasizing evaluation.

Title: **Advanced Applications in Health Promotion** (BBH 417; 3 credit hours). The Pennsylvania State University, Department of Biobehavioral Health.  
Role: Course instructor (100% responsibility)  
Enrollment: ~20 undergraduate students  
Offered: Two semesters  
Description: Advanced learning experience in health promotion applications in which students will actively participate in planning, implementing, evaluating health programs.

Title: **Research Strategies for Studying Biobehavioral Health** (BBH 310; 3 credit hours). The Pennsylvania State University, Department of Biobehavioral Health.  
Role: Course instructor (100% responsibility)  
Enrollment: ~100 undergraduate students  
Offered: One semester  
Description: Surveys the various research methodologies used in biomedical research, including case, epidemiological, quasiexperimental and experimental approaches.

Title: **Introduction to Biobehavioral Health** (BBH 101; 3 credit hours). The Pennsylvania State University, World Campus Online Instruction.  
Role: Course instructor (100% responsibility)  
Enrollment: 30-40 undergraduate students.  
Offered: 11 semesters  
Description: Introduction to an interdisciplinary study of health, examining the interaction of biological processes and behavior on health.

Title: ***Research Methods in Psychology*** (PSYCH 202; 3 credit hours). West Virginia University, Department of Psychology.  
Role: Course instructor (100% responsibility)  
Enrollment: 100 undergraduate students  
Offered: One semester  
Description: Research methods in experimental, developmental, clinical, and community-social psychology in the laboratory and the natural environment.

Title: ***Exceptional Children*** (AKA Abnormal Child Psychology; PSYCH 382; 3 credit hours). West Virginia University, Department of Psychology.  
Role: Course instructor (100% responsibility).  
Enrollment: 25 undergraduate students  
Offered: Four semesters  
Description: Exceptional mental retardation or advancement; organic disabilities having behavioral consequences, such as cerebral palsy or deafness; and behavior disorders.
